**In this tale, we join the sweet sad goddess, high up on a hill,  
as she receives a mysterious call to go into the forest.  
She resists at first (as we sometimes do!),  
but then decides to go ahead.**

**As her journey into nature unfolds,  
our goddess connects with her hidden sadness,  
feels gently held by the divine eternal,  
experiences her true core divinity,  
and finds the place where all hearts  
joyfully join together in the mystery.**

**This book has no religious dogma,  
making it appropriate for people on any spiritual path, or none.  
It's also especially empowering for women.**
